ABAR SMART GOALS

Setting realistic, equitable & achievable outcomes.

My goal is:

What do I want to happen?

Who is being silenced? Whose voice isn't being heard?

How will I know when I have achieved my goal?

Who Benefits? Who is Burdened?

Is the goal realistic and how will I accomplish it?

What criteria is being used?

Why is my goal important to me?

Where do I see this in society? what's the sociopolitical context?

What is my deadline for this goal?

Who is part of the decision-making?
